OUT OF THE SILENT BREATH

Poems by
Jacqueline Oby-Ikocha

The background of the cover is black, featuring several dynamic, glowing blue light trails. These trails are composed of multiple overlapping, curved lines that create a sense of movement and energy. Some trails are straight, while others are more complex, looping and swirling. The light trails vary in intensity, with some appearing as bright, sharp lines and others as softer, more ethereal glows. The overall effect is reminiscent of a nebula or a high-speed light show.
